WORK EXPERIENCE

Product Engineering Junior Mission Specialist | KadaKareer

Jan 2026 – Jun 2026

- Enhanced the "Koach" mentorship experience by re-engineering the Koach Connector interface, resolving critical frontend bottlenecks and streamlining the user journey for smoother coach-student interactions.
- Optimized product reliability for the KadaKareer ecosystem by implementing rigorous cross-browser testing and UI bug fixes, ensuring a seamless high-fidelity experience for thousands of aspiring career-seekers.

Product Designer | DEVCON Philippines – Ortigas, Pasig City

Jan 2025 – Apr 2026

- Accelerated design-to-prototype velocity by 40% by architecting an AI-automated workflow using Google Stitch and Figma to build the high-fidelity design system for DEVCON+, a centralized hub for the 11 nationwide chapters of DEVCON Philippines.
- Optimized cross-platform performance and UX consistency for 300+ volunteers by developing the final launch-ready mobile prototype using Kotlin Multiplatform (KMP), leveraging Claude Code for rapid architectural iterations and granular code optimization.

Full Stack Developer & DEVCON Studios Intern | DEVCON Philippines – Ortigas, Pasig City

Sept 2025 – Dec 2026

- Pioneered the Caffeine AI ecosystem in the Philippines by engineering dApps on the Internet Computer Protocol (ICP) to accelerate deployment cycles, while spearheading the inaugural Caffeine AI Manila Hackathon for 200+ participants and 300+ total attendees.
- Elevated DEVCON Studios' digital reach and engagement by 31% by implementing a high-cadence content strategy, introducing interactive social media slide cards and high-retention Reels to establish the platform as the premier media hub for the community.

UI/UX Intern | Easybus PH Inc. - Diliman, Quezon City

Jul 2025 - Oct 2025

- Designed and optimized UI/UX prototypes in Figma for EasyBus partner platforms such as Ohayami Trans Bus Terminal, DLTB Co., and Raymond, enhancing usability and customer booking flow.
- Published and maintained the official Ohayami Trans Bus Terminal, DLTB Co., and Raymond websites using WordPress + Elementor, improving online accessibility for 5,000+ monthly commuters.

Digital and Social Media Operations Intern | Globe Telecom Inc. - BGC, Taguig City

Apr 2025 – Jul 2025

- Developed social media cards and key visuals for GlobeICON and Globe of Good under Globe Telecom, contributing to content viewed by over 300,000+ followers across Globe's various social media platforms, while conducting user and company research to support business strategy alignment.

Junior Graphic Designer | Widustalk Academy – Ortigas, Pasig City

Feb 2023 – Aug 2023

- Designed 10+ digital and print design assets weekly for four brands (Lingoloco Academy, Bobjo, Mango Rush, and Bueno Barber Shop), enhancing visual consistency and engagement across social media platforms with a combined reach of 9,000+ followers.

LEADERSHIP EXPERIENCE

President / Chapter Organizer | Google Developer Group on Campus - TUP Manila

July 2025 - Present

- Organized and facilitated hands-on workshops, talks, and hackathons in collaboration with Google technologies (e.g., Firebase, Flutter, Gemini), resulting in over 500 cumulative student learning hours and increased tech adoption for 300+ students while managing a board of 100+ executives and leads.

Vice President of Technology | DEVCON Manila Chapter

Jan 2026 - Present

- Scaled technical education to 100+ participants by collaborating with the DEVCON Philippines Program Leads to architect and execute specialized Code Camps focused on AI and Blockchain trends.

Vice Governor | College of Science Student Council – TUP USG Manila

Jun 2024 – July 2025

- Served student-centered governance and university initiatives impacting the 1,500+ College of Science students, driving a 5.4% increase in content engagement through 5+ major key programs while guiding a team of 51 student council members, boosting student-led events productivity by 300%.

TECHNICAL SKILLS AND PROJECTS

Tech Stack: React | React Native Expo | NextJS | Express | NodeJS | HTML / CSS / JavaScript | TypeScript | PostgreSQL | Tailwind

Designing: Figma | WordPress + Elementor | Adobe Photoshop | Canva | Adobe Illustrator

Wika React Native Expo, JavaScript, Gemini, ElevenLabs Developer Camp Manila 2026 - 1st Runner Up	Mar 2026
Engineered a functional AI-driven Philippine language-learning mobile application in a high-pressure 16-hour development sprint, integrating Gemini and ElevenLabs to deliver real-time voice interactions while training a custom model on regional Philippine datasets to bridge linguistic gaps in standard LLMs.	
DEVCON+ React + Vite, TypeScript TailwindCSS, Supabase, Figma, Google Stitch, KPM, Claude Code	Mar 2026
Architected a unified community hub for 11 DEVCON chapters by evolving a React and Supabase R&D prototype into a production-ready Kotlin Multiplatform (KMP) mobile application, leveraging an AI-automated Google Stitch workflow and Claude Code to achieve shared business logic while accelerating design-to-prototype velocity.	
Eclipse Godot, GDScript Global Game Jam 2026 - Most Fun Game (Major Award)	Feb 2026
Developed a high-speed 2D movement platformer from scratch in 48 hours, winning the "Most Fun Game" award by developing a complex dual-state physics engine that allowed players to toggle seamlessly between weightless and grounded movement states.	
Centro NextJS, TypeScript, TailwindCSS, Supabase	Feb 2026
Engineered a comprehensive property management SaaS that unified residential, administrative, and security operations into a single interface, utilizing Supabase for real-time data synchronization and role-based access control.	
Sinag React + Vite, TypeScript, TailwindCSS, Gemini, Flask, ThirdWeb Meralco IDOL Hackathon 2025	Nov 2025
An AI and blockchain-powered rewards system for saving electricity, building the React Vite and Tailwind CSS frontend, Gemini and OCR Flask backend to convert Meralco billing data into consumption insights for points redeemed in a rewards ecosystem engineered with Thirdweb and Polygon to mint tamper-proof tokens for verified savings.	
Kolehiyo React + Vite, TypeScript, TailwindCSS, NodeJS, Express, PostgreSQL, Supabase	Oct 2025
Developed a centralized college and scholarship application tracker, by designing the UI in Figma, building the front end with React Vite and Tailwind CSS, and initializing the backend with Node.js, Express, and PostgreSQL, improving application tracking efficiency by 60% through a unified, responsive platform.	
AkbAI Flutterflow, Figma, Gemini AI, Firebase Google APAC Solution Challenge	May 2025
An AI-powered mobile app companion designed to act as a real-time AI language assistance, itinerary travel planner, and dialect translator revolutionizing travel experiences in the Philippines.	
Keyraoke Godot, GDScript Aral Arcade Game Jam - Champion	Apr 2025
A rhythm-based music typing video game that transforms your favorite songs into an interactive learning challenge developed in Godot utilizing GDScript with interfaces designed in Adobe Photoshop.	

CERTIFICATES AND ACHIEVEMENTS

1st Runner Up - Wika Developer Camp Manila 2026	2026
Most Fun Game - Major Award Global Game Jam 2026 - CIIT	2026
Certificate of Recognition – Journey Talk Speaker GDGoC - PLM General Assembly	2026
Certificate of Recognition – Game Development Speaker PUP The Programmers Guild Unlock()	2025
Certificate of Recognition – Artificial Intelligence Resource Speaker JRU AI Am Ready Seminar	2025
Certificate of Recognition – Artificial Intelligence Resource Speaker EARIST COMSA Seminar 2025	2025
Certificate of Recognition - Ideathon Judge PUP Software Engineering Day 2025	2025
Certificate of Recognition - Game Development Speaker DEVCON Manila Game On Game Jam!	2025
Champion - Aral Arcade Game Jam Kwentoon & Indie Games Group Philippines	2025
Champion – Logo Making Contest YWCA Philippines: Period Positive Project	2025
NCR Finalist – Top 4 Packethacks 2024 IoT NCR	2024
Bronze Awardee StartUp QC 2024 Student Competition	2024
Top 3 – Mobile Photography YMCA 46 th National Congress	2024

EDUCATION

Technological University of the Philippines - Manila Bachelor of Science in Computer Science	2027
Academic Achiever - Dean's Lister CHED-NCR - StuFAPs CMSP Scholar YMCA Manila – Scholarship Recipient Related Coursework: Software Engineering, Mobile Application Development, Web Development, Human-Computer Interaction, Data Analytics, Object-Oriented Programming, Artificial Intelligence, Data Structures and Algorithms
